EDUCATION:

ENGINEERING DEGREE
Digital Sciences (Sciences du Numérique)
ENSEEIHT – Toulouse INP
2026 – 2029
Toulouse, France

CLASSES PRÉPARATOIRES
Two-year preparatory course for the French engineering schools
2024 – 2026
Lycée Omar Ibn Al Khattab
Meknès, Morocco

LANGUAGES:

- Arabic: native
- French: C1
- English: B2
- Spanish: A1 (learning)

PROFILE:

First-year computer science engineering student at ENSEEIHT (Toulouse INP), after two years of classes préparatoires in mathematics and physics. I did web development in high school. I want to work in artificial intelligence and machine learning, and later start my own startup. For my international mobility, I am considering the United States, Canada or Spain.

SKILLS:

- **Programming:** Python, Ada, JavaScript, TypeScript, SQL
- **Tools and systems:** Linux, Windows, Git, GitHub, Figma
- **Web development:** React, Next.js, Node.js, Express, Tailwind CSS, Prisma, MongoDB

PROJECTS:

- **JobHub:** job application tracker that helps job seekers stay organized throughout their job search.
  Technologies: React, Tailwind CSS, Express.js, Prisma, MongoDB
  github.com/mouadhnida/Jobs-api
- **MyDent:** dental practice management application: patient records, dental information, and appointment scheduling and tracking.
  Technologies: Next.js, TypeScript, Tailwind CSS, Prisma, MongoDB
  github.com/mouadhnida/MyDent

ENGAGEMENT:

- **“Futur Proche” festival:** took part in conferences, workshops and presentations on climate change, organized with the universities of Toulouse, to discover scientific innovations that are already in use or still being developed.

INTERESTS:

- Chess (3 years of practice)
- Gym (regular training)
